WBENC Certification requires a thorough review of business documentation, including documents relevant to ownership, financial structure, personnel, management, and governance. Before starting the certification process, we recommend reviewing the list of required documentation and gathering all materials in advance

- For documents listed as 'Required," you must provide the document or check the Not Applicable box if it is not relevant to your business.
- Failure to provide the necessary documentation required to ascertain the company's eligibility is reason for a denial.
- Your assigned Regional Partner Organization (RPO) and/or WBENC reserves the right to request additional documentation.
- Please do not upload password-protected documents, without providing the password for the File Description.
- Unless otherwise noted, requirements are the same for all business structures.
- NOTE: All documents will be treated with the utmost security and confidentiality.

## **WOSB CERTIFICATION PROCESS**

- Proof of ACTIVE registration in <u>SAM</u> (Printout of Entity Overview)
- SAM registration must be validated before the status is listed as Active. This process normally takes a few weeks to obtain SAM registration. If interested, please begin the SAM process immediately to not delay the certification process.
- NOTE: In order to be processed for the WOSB certification, the company's Primary NAICS Code must align with the Principal Business Activity listed on the company's federal tax return.

### **How to Apply**

- If interested in WOSB certification, the applicant MUST select 'Yes' when answering the first question of the online application in Section 1: General Information, "Would you like to apply for WOSB certification?"
- NOTE: Applicants may only apply for WOSB Certification when applying as a new or recertifying WBE applicant. Upload the WOSB Documentation listed in 'Required Documents' section
